

Use L&E HD Video Streaming to observe your focus groups in real-time or anytime you want, from anywhere you want. L&E HD Video Streaming is integrated with the L&E Client Portal, making it simple to access and navigate. You will love the increased data speeds and enhanced video quality. Integrated chat functionality allows you to communicate with your team members in real-time. And the robust video editing tools are fine-tuned for marketing research, with video markers and highlighting features that allow you to easily pinpoint significant moments in your research. In addition you can utilize our partnership with LivingLens and take any of your content from L&E and import it into the LivingLens platform to uncover new insights through their video analytics technology.
